

FAQs: Screws, Fasteners

1. [I'm looking for the signification of Screw Size n°6 and n°10. What is the equivalent in millimeters? Do you have a chart for that?](#)

I'm looking for the signification of Screw Size n°6 and n°10. What is the equivalent in millimeters? Do you have a chart for that? You may want to try the National Fastener Distributors Association at www.nfda-fastener.org or the Specialty Tools & Fasteners Distributors Association at <http://www.stafda.org/index1.html>.
