FAQ: Software
1. [Where can I find a directory of service companies specialized in utility software integration and maintenance for the electric power industry in Europe?](#)

Where can I find a directory of service companies specialized in utility software integration and maintenance for the electric power industry in Europe? You might try these sources: Utility Business Magazine (www.utilitybusiness.com). Just a couple of months ago, I think there were a couple of full articles on the topic of utility software integration (in actual magazine, maybe on their website). You might also contact EEI, Edison Electric Institute (www.eei.org). They are the association that deals more with the utilities. We concentrate on manufacturers.   One last site www.utilityconnection.com.
