

FAQs: Switches

1. [Can you help find a definition for NEMA KS1? It is referenced by a reviewer on a thermally protected manual controller?](#)

Can you help find a definition for NEMA KS1? It is referenced by a reviewer on a thermally protected manual controller? NEMA Standards Publication KS 1-1996 is titled Enclosed and Miscellaneous Distribution Equipment Switches (600 Volts Maximum). It covers manually operated enclosed and miscellaneous distribution equipment switches that are rated not more than 600 volts and 6000 amperes with or without a horsepower rating; with or without plug or cartridge fuses; etc. It can be purchased from Global IHS by calling 800/854-7179.
