NEMA Comments on Energy Conservation Standards for Dedicated-Purpose Pool Pump Motors, Notice of Request for Direct Final Rule

Docket Number: EERE-2017-BT-STD-0048

Dear Mr. Dommu:

As the leading trade association representing the manufacturers of electrical and medical imaging equipment, the National Electrical Manufacturers Association (NEMA) notes the Department of Energy's Request for Comment regarding Notice of Request for Direct Final Rule for Dedicated-Purpose Pool Pump Motors. These comments are submitted on behalf of the NEMA Motor and Generator Section and Small Machine Group (i.e. small motors).

NEMA supports the petition and encourages the DOE to proceed with a Direct Final Rule as requested by the petitioners, including NEMA.

The National Electrical Manufacturers Association (NEMA) represents nearly 350 electrical equipment and medical imaging manufacturers that make safe, reliable, and efficient products and systems. Our combined industries account for 360,000 American jobs in more than 7,000 facilities covering every state. Our industry produces \$106 billion shipments of electrical equipment and medical imaging technologies per year with \$36 billion exports.

If you have any questions on this submission or our previous comments, or wish to arrange a face-to-face meeting, please contact Alex Boesenberg of NEMA at 703-841-3268 or alex.boesenberg@nema.org

Sincerely,

A handwritten signature in black ink that reads 'Philip A. Squair'. The signature is written in a cursive, flowing style.
