TEXT AMENDMENTS

Section II
Small (Fractional) and Medium (Integral) Machines
Part 12
Tests and Performance—AC and DC Motors

12.0 Scope

The Standards in this Part 12 of Section II cover direct-current motors built in frames with continuousdripproof ratings, or equivalent capacities, up to and including 1.25 horsepower per rpm open type.

12.35 Locked-Rotor Current of 3-Phase Small and Medium Squirrel-Cage Induction Motors

Tables 12-1A—12-1D

12.50 Performance of Small and Medium Polyphase Motors with Single, Dual or Broad Range Voltage Rating
