

electroindustry

JANUARY/FEBRUARY

Space: 12/4/18

Artwork: 12/14/18

Exploring New Utility Models

- Grid modernization
- Energy storage
- Big data
- Blockchain
- Microgrids and nanogrids
- Distribution automation
- Time-varying rates
- Reliability and resilience
- Integration of electric vehicles

MARCH/APRIL

Space: 2/4/19

Artwork: 2/15/19

Bonus Distribution: LightFair

Managing Lighting Systems

- LEDs: Still in their infancy
- Human and health centricity
- Parking lights & cybersecurity
- Science of controlling ambiance
- Building management
- Compatibility & interoperability

MAY/JUNE

Space: 4/8/19

Artwork: 4/15/19

Electrifying Transportation: Not Just for Cars Anymore

- Rail
- Air and seaports
- Cybersecurity
- V2I: Electric & autonomous vehicles
- Intelligent transportation systems

JULY/AUGUST

Space: 6/3/19

Artwork: 6/14/19

Systems Efficiency Modeling: Buildings that Enable Fun and Function

- Building management systems
- Energy components
- Workplace and school safety
- Disaster recovery
- Communication systems

SEPTEMBER/OCTOBER

Space: 8/2/19

Artwork: 8/15/19

Smart Manufacturing in Plants and with Plants

- Harvest time with electrified agriculture
- Drones and the supply chain
- Human-machine partnerships (AI)
- Industrial automation
- Mining

NOVEMBER/DECEMBER

Space: 10/4/19

Artwork: 10/17/19

Bonus Distribution: NEMA Annual Meeting; RSNA Annual Meeting

The Connected Customer: Creating Dynamic Systems with Passive Devices

- Enabling connected venues with smart receptacles, voice activation, energy management
- Surge protection
- Retrofit market (MUSH)
- Devices listed for safety
